EDUCATION

Flatiron School
New York, NY - 2018
Full Stack Web Development
Immersive Program

EXPERIENCE

Untapt

September 2018 - Current

- Wrote clean and clear code in AngularJS (learned on the job) and ReactJS
- Created NPM packages that were used and customized in many different applications
- Switched over an AngularJS application to React
- Tech lead and project manager for a few clients
- Filled in for backend engineer when needed

Impakt Advisors

Contract work

- Created Angular app for the client from the ground up
- Used ChartJS to create a dashboard of diagrams to display data
- Hosted app on Netlify

Tzivos Hashem

Contract work

- Used responsive CSS to make the app mobile friendly
- Used ChartJS to create animated charts for students to see their reports
- Created downloadable report cards with React

PROJECTS

Musico

HTML | CSS | JAVASCRIPT

An app made to combine friends' playlists and play songs of shared interest

- Used Firebase for live updates
- Used the Spotify API to authenticate users and play music
- Used custom CSS to create a clean UI and responsive design
- Progressive web app

Game Night

HTML | CSS | JAVASCRIPT

A fun, interactive, live Rummikub game with your friends online

- Used Firebase to make live connections between friends
- Used HTML and Javascript to create 'drag and drop' functionality
- Used mostly custom CSS to create a clean and fun design

Trippy

HTML | CSS | RUBY | JAVASCRIPT

A great way to plan trips with your friends

- Used JWT to build custom authentication and authorization functionality
- Built APIs using Ruby on Rails and the MVC pattern
